

Welcome to the SOS Printing FTP Site

This site is setup to accommodate
Windows and Macintosh users via browsers or FTP programs.

TO ACCESS OUR SITE:

Browser users should type **ftp://ftp.sosprint.com** in the address window.
By doing so you should automatically access the
FTP_Directory; however, if prompted, login as
username: **ANONYMOUS** and leave the password field empty.

Some FTP programs, such as Fetch, require
a server or site name, user name, and password.
If so prompted, type **ftp.sosprint.com** in the server (site) name field,
ANONYMOUS in the user name field, and
your email address (jd@johndoe.com) in the password field.

TO DOWNLOAD FILES FROM OUR SITE:

Navigate to the appropriate **download** directory
and choose the file(s) you want.

TO UPLOAD FILES TO US:

Drag and drop (compressed files only, please) to the **upload** directory.
Windows users should send .zip archives, mac users send .sit archives.
PDF files are acceptable from either platform. Please notify us by
emailing **prepress@sosprint.com** when you have posted files to our site.
Also make sure you contact your SOS sales or customer service
representative to initiate the proper paperwork.
Please note: Macintosh Internet Explorer users will **not**
be able to upload to this site - however, Netscape does support
drag and drop uploading for mac.

If you have any further questions or problems accessing this site,
please contact us via email at **prepress@sosprint.com**
